

韦克斯科技（北京）有限公司

WIX TECHNOLOGY BEIJING CO., LTD

WIX-miniDNA Mini Horizontal Electrophoresis Cell

Features

- ◆ Separation and analysis of at most 32 samples within 20 minutes, which is advantageous in recycle of DNA fragment.
- ◆ The gel tray with fluorescent gauge is high temperature resistant, ultraviolet ray compatible and non-deformed in 100°C. Gel irrigation can be done before agarose is cooled.
- ◆ Built-in movable e-engine without washer, easy maintenance, non-leakage.

WIX TECHNOLOGY BEIJING CO., LTD

Technical parameter

- ◆ Gel area: 70×70mm & 70×100mm
- ◆ Comb specification: 0.75mm: 9wells/16wells; 1.0mm: 9 wells/16 wells; 1.5mm: 9 wells/16 wells.
- ◆ Buffering liquid volume: 260ml
- ◆ Dimension: 260×110×80mm (L×W×H)
- ◆ Weight: 0.6Kg
